

# Our 1763 Munch Experience

On November 4th my wife and I drove 3 and a half hours to 1763, for the November Munch. We weren't sure what to expect, and had only ever been to one club like this before. So we are rather inexperienced at this point being in a "dungeon" setting with other people around.

The staff was incredible and made us feel completely comfortable. The establishment was neat and clean and looked just like the pictures we saw on the website, only better. It was simply amazing. We stayed for the munch and decided to become members, I mean what else could we do? It was something we weren't 100% sure of until we were there and met several people.

All the sites and sounds we took in as the night progressed were simply stunning. We talked and met people, we asked questions and were given advice, saw things we had never seen or thought about before. We even were bold enough to set my wife up on the St. Andrews cross for me to flog and spank, while others were watching. It was a completely enjoyable and comfortable atmosphere, where we felt at home with like minded people.

We have already decided to come to another event in December. Thank you all for such a great real first dungeon experience. We know as we grow there will be many more and we look forward to coming back to 1763.

Thanks again for a truly excellent experience

Mr. Sinister
